

5 & 6 of August, 2017

Argilla, the largest Pottery Fair in France, has become the image of Aubagne.

For 26 years, the event has got better and bigger, becoming the 'must' for anyone interested in Ceramics.

With its 190 exhibitors, its 85,000 visitors, its 30,000 followers on the Argilla Aubagne FB page and a still rising turnover, the latest edition testifies of the scale and dynamism of this event. In 2017, the challenge is to continue this movement.

Our goal is not to do more but better.

So, Quality is and remains the main word of our selection. Of course, the panel will be international and will continue to progress with, once again, a guest country...

Because of the links developed with our partners of the European Group of the Cities of ceramics, it seems natural that this guest country will be Spain.

The cultural and entertainment offer, around the fair, will be very Spanish, with a specific program.

Of course, the success of this edition will depend, first, on you.

And as usual, Quality of production, Originality, Quality of presentation and a welcoming attitude must imperatively be the founding elements of this event.

So ... Still ready for this challenge with us?
